NEW RULE. Floor Diagram.

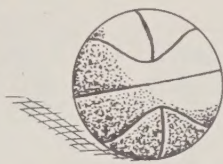

Notice that the floor now extends four feet beyond the face of the back board. Ideal floor sizes according to age. 1. Junior High Age 42 x 74 ft. 2. High School Age 50 x 84 ft. 3. College Age 50 x 94 ft.

SAYGER

NEW RULE: THE BALL:

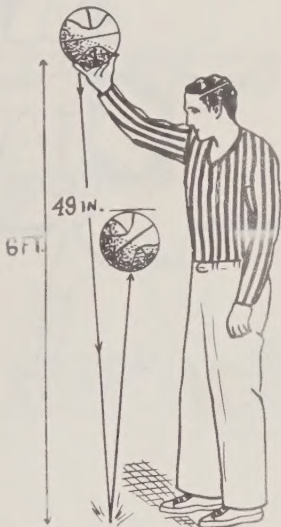

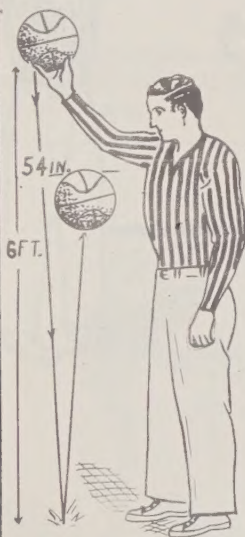

Circumference and Resiliency.

For Adults:

Circumference not
greater than 30 in.,
not less than $29\frac{1}{2}$ in.

For players below
Senior High School
age, not less than
29 in.

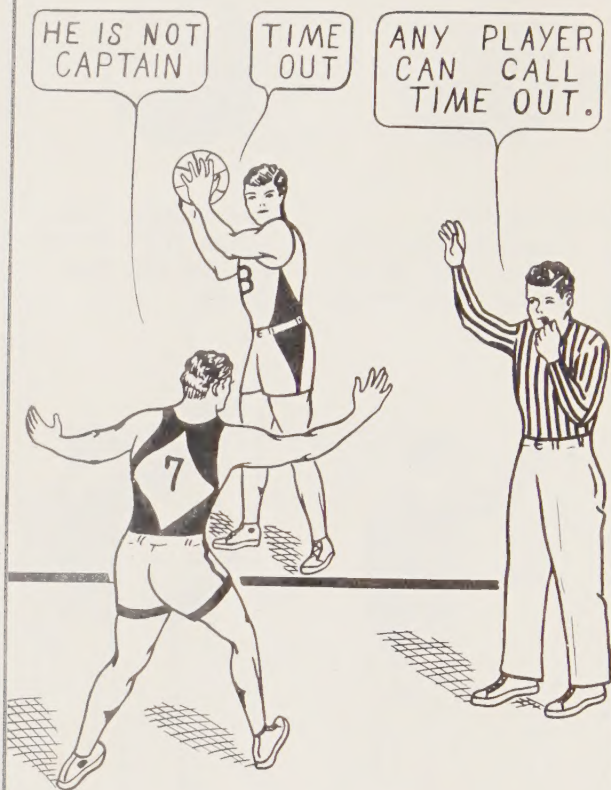

To test the resiliency of the ball: Drop the ball from a height of six feet, measured from the bottom of the ball, to solid wood floor, then, measured to the top of the ball, it must not rebound higher than 54 in. or less than 49 in.

SAYGER

NEW RULE

Calling Time Out.

Any player may request time-out when the ball is dead, or in control of this player's team.

Calling time-out was formerly in charge of the team captain.

SAYGER

NEW RULE Time Piece and Score Book.

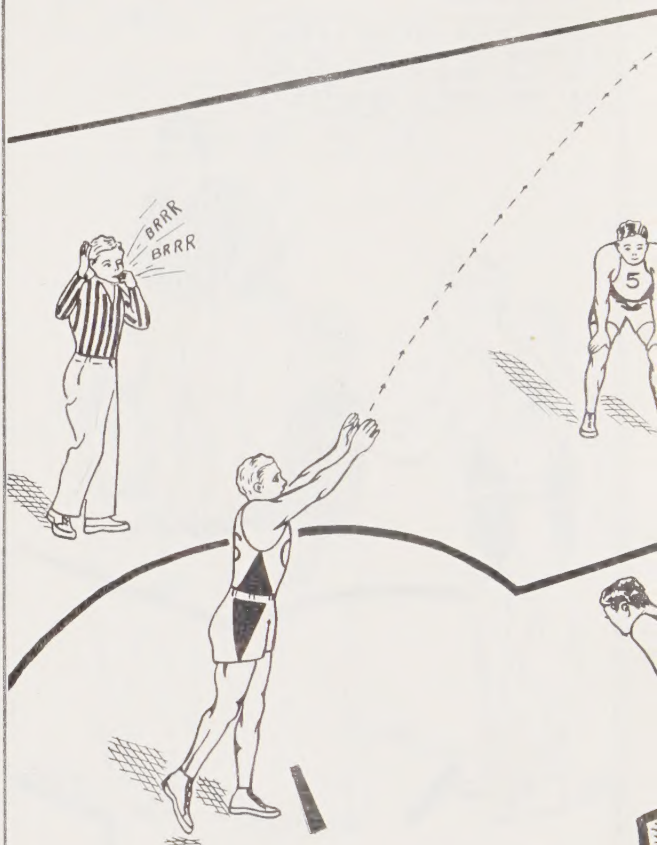

The illustration above shows the referee designating the official time-piece. This is necessary at all games.

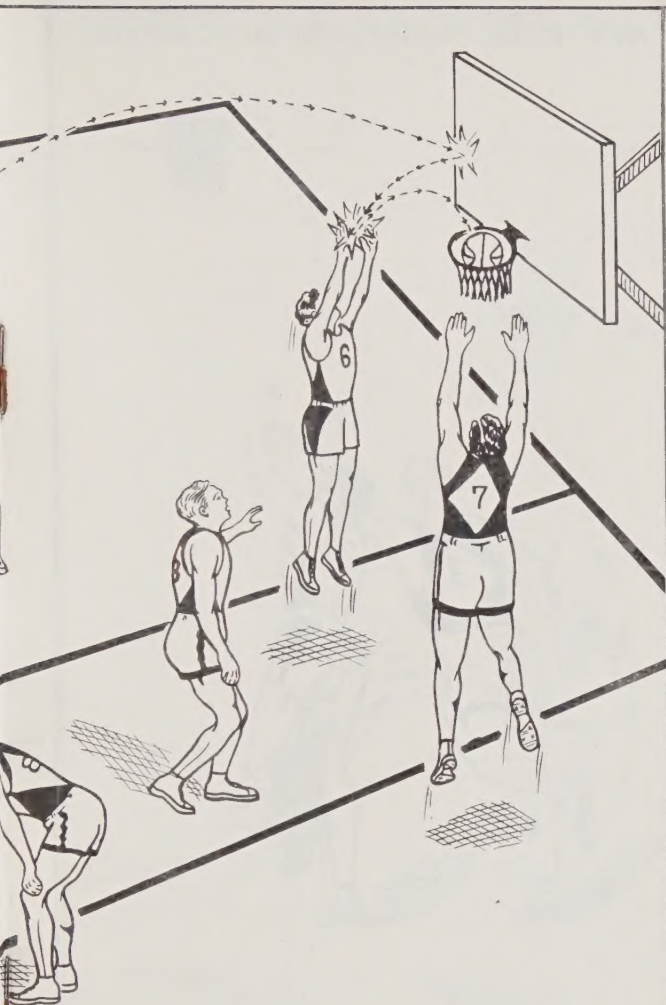

The referee must inspect the score book at the end of each half.

NEW RULE

On an attempted free throw the ball must enter the basket or touch the ring.

The illustration above shows a player attempting a free throw. The ball struck the backboard and was then tapped into the basket. This is a violation. Should a free throw fail to go into the basket or

touch the ring even though it might touch the back-board and then be batted into the basket or against the ring by another player, it will be the opponents ball out of bounds on the end near the basket for which he was throwing.

SAYGER

NEW RULE: Fouled in the act of shooting.

The illustration above shows a player being fouled, from behind, when in the act shooting. Two free throws shall be awarded whether the goal is made or missed.

SAYGER.

NEW RULE: Fouled in the act of shooting.

The illustration above shows a player roughly handled while in the act of shooting. Two free throws shall be awarded whether the goal is made or missed.

SAYGER

NEW RULE: Choice of a free throw or possession of the ball.

MAY OUR TEAM TAKE THE BALL OUT OF BOUNDS AT MID-COURT INSTEAD OF SHOOTING THE FREE THROW?

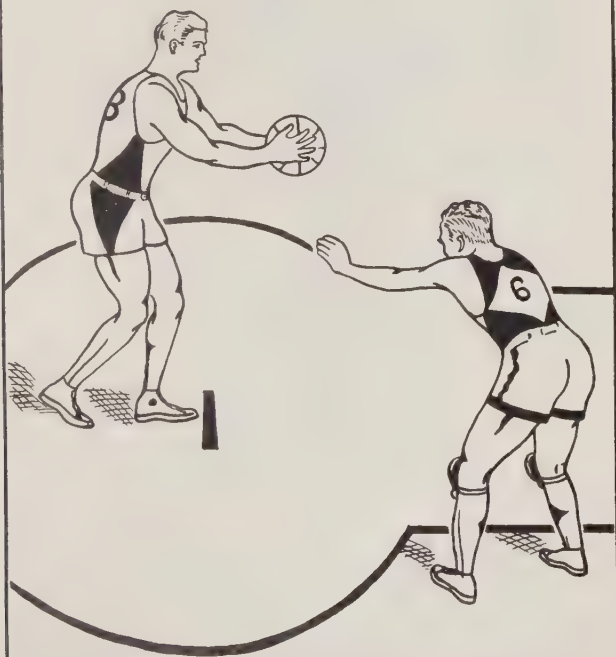

YOU MAY

The illustration above shows a player about to shoot a free throw, but he decides to have his team take the ball out of bounds at the center of the court instead of taking the free throw. This is legal. In case of a multiple throw this applies only to the last free throw. It does not apply to a double foul. SAYGER

Disconcerting a player attempting a free throw.

OFFICIAL NOTE: To avoid disconcerting the free-thrower, neither official should stand in the free throw lane or behind the back board.

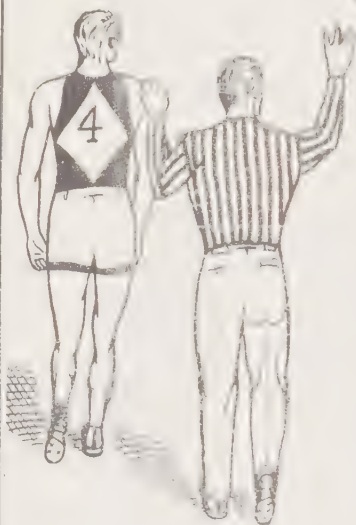

The illustration above shows a player about to attempt a free throw. Player No. 6 is reaching toward the thrower. This is illegal.

SAYGER

NEW RULE

Identification of Player

The official who calls a foul is responsible for notifying the scorer as to number of the offender.

It will be necessary for the official to make sure that the scorer knows the number of the player committing the foul. Even though it requires singling the player out, as shown above.
